Dolgin Debuts TC200-FT125-i-TDM 2-Position Battery Charger for Fuji NP-T125 batteries

Lexington, MA – Dolgin Engineering, a leading provider of fast multi position battery chargers and DC power adapters announced the release of a new smart 2-position battery charger for Fuji NP-T125 batteries.

Designed for video production studios and rental facilities, the unit is designed to provide fast, reliable charging of multiple camera batteries for both in-house and field use.

The TC200-FT125-i-TDM incorporates a host of key features including:

- Fast, safe simultaneous charging of Fujifilm NP-T125 battery packs -under 2 hours.
- Compatible with non-OEM batteries.
- Digital LCD display indicates the battery pack capacity.
- As a battery is being charged, charge status is displayed in Volts, Ah, and percent of charge
- Test/discharge circuit for complete battery characterization.
- Each of the 2 channels is fully independent of the other.
- Auto-detecting, fast charging USB port for recharging tablets, handsets, personal media players and other portable devices (Apple, Android, etc).
Works when AC power is available and on-the-go when at least one charged battery is available.
- Worldwide 100-240V AC power.
- 12V DC power for mobile use, using cigarette lighter car cord (or similar) for connection to the power source.
- Sleek, small and lightweight package (WxHxD) 5.4" x 2.0" x 5.2".
- Designed and manufactured in the USA.
- Warranty 2 years parts and labor.

The TC200i also features a highly efficient smart charging circuit. "It takes less than 2 hours to charge a NP-T125 battery pack. The pack can be left on the charger after the charge is complete," said Dolgin.
